October's Editorial

Exploring New Frontiers

Dear Readers,

Welcome to the October issue of Gulf Extrusions Magazine, where we showcase a diverse range of topics, highlighting our contributions, achievements, and community engagement initiatives.

Our featured articles include the remarkable projects of King Abdul Aziz International Airport in Jeddah and the prestigious Dubai Frame. We take pride in our involvement and the high-quality aluminum solutions we provided for these iconic projects.

To offer insight into our company, we present "Gulf Extrusions at a glance," providing an overview of our rich heritage, impressive capabilities, and cutting-edge technologies.

We were honored by the visit of the Minister Counselor of Rwanda, which signified our commitment to fostering international partnerships and exploring collaboration opportunities.

Our recent Flu Vaccination campaign prioritized the well-being of our employees, ensuring their health and safety.

In our Breast Cancer Awareness webinar, we emphasized early detection and prevention, spreading awareness and empowering individuals to take charge of their health..

We are excited to announce the commencement of the Gulfex fitness challenge, promoting a healthy lifestyle and fostering team spirit among our employees.

We hope this issue of Gulf Extrusions Magazine provides insightful understanding of our company's contributions and commitment to a better future.

Enjoy reading!

King Abdul Aziz International Airport: A Landmark Project Showcasing Gulf Extrusions' Aluminum Innovation and Expertise

King Abdul Aziz International Airport Jeddah, Kingdom of Saudi Arabia

King Abdulaziz International Airport is the most important one in the Kingdom, being the gateway for Hajj and Umrah pilgrims to the Holy Mosque in Makkah. It is also home to the world's fourth largest terminal in the world: the Hajj terminal, a whopping 510,000 square meters in size.

Project Name: King Abdul Aziz International Airport, Jeddah - Kingdom of Saudi Arabia

Extrusions Supplied By: Gulf Extrusions Co LLC

Product Name: Twisted Profile

We are pleased to provide a concise summary of the project, which encompasses the following details:

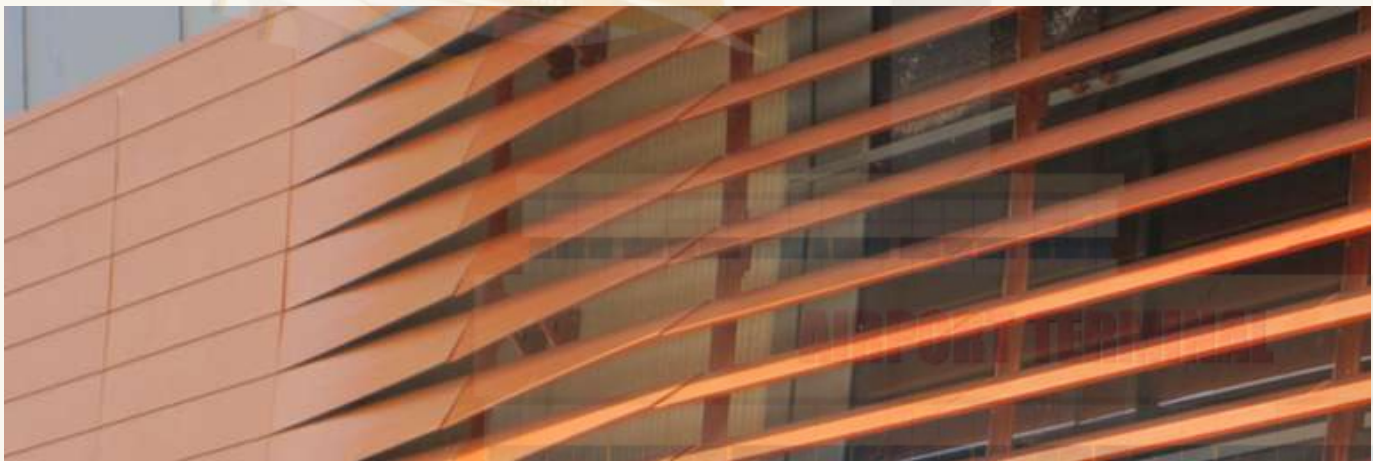

Key Project Statistics:

- Total Project Area: 100 square kilometers
- Glass & Aluminium Area: 100,000 square meters

Unique Design Feature:

- 40,000 sq m of Rain Screen Louver System
- Aluminium extrusions system has blades transiting from closed to open over a distance of 6m
- Supports the façade by providing wind load connection

Location of the System: In the boarding bridge area & in front of the glass façade, enhancing the overall visual impact and functionality of the project.

By leveraging Gulf Extrusions' expertise and high-quality extrusion products, the Twisted Profile at King Abdul Aziz International Airport sets a new standard in innovative design and showcases the seamless integration of aluminium extrusions in large-scale architectural ventures.

Our involvement in the Dubai Frame project has been a momentous journey marked by meticulous attention to detail, cutting-edge engineering techniques, and unwavering commitment to excellence.

we - at Gulf Extrusions - are immensely proud to be an integral part of the Dubai Frame, and we are honored to have contributed to the creation of this iconic landmark.

Gulf Extrusions At A Glance

- 47** Years of experience in Aluminium Extrusions
- 650** Skilled Employees
- 800** Happy Customers around the World
- 39** Countries where we export our products
- 70,000** Tons of Aluminium Extruded per Annum
- 20,000** Tons of Powder Coating Finishing
- 8,800** Tons of Anodizing Finishing

- 2** Manufacturing Facilities

Gulf Extrusion, the Dubai-based Aluminium extrusion company and one of the regional leading manufacturing facilities, extrudes aluminum for a wide range of sectors including Architectural, Industrial, Construction, and Automotive industries all over the globe.

With more than 47 years of experience in aluminium extrusions, 650 skilled employees, 800 happy customers around the world, exports to more than 39 countries, Gulf Extrusions is well positioned to further strengthen its top position on the world of aluminium industry.

The company well utilizes its resources including contemporary six presses and highly skilled teams of international specialists to annually produce approximately 70,000 Tons of extruded aluminum annually that includes 20,000 Tons of Powder Coating Finishing, 8,800 Tons of Anodizing Finishing and 42,000 Design Profiles.

Gulf Extrusions operate two state-of-the-art manufacturing facilities, located in Dubai and Abu Dhabi respectively.

Exciting Visit from Rwanda !

We were honored to host Edouard Bizumuremyi, the Minister Counselor of Rwanda, at Gulf Extrusions.

During his visit, we showcased our cutting-edge products and manufacturing capabilities. We also had in-depth discussions about the incredible opportunities to make our mark in the Rwandan market and potentially collaborate on government projects.

Saty Away From The Flu... Vaccinate Your Crew!

Gulf Extrusions, a subsidiary of Saif Al Ghurair Group, in collaboration with MetLife and Aster DM Healthcare organised a well-orchestrated Anti-Flu Campaign on 10th October, 2023.

We extend our thanks to MetLife Gulf and Aster DM Healthcare for their valuable collaboration in organizing the Anti-Flu Campaign and Vaccination Drive, which greatly contributed to its success.

At Gulf Extrusions, our employees are at the heart of everything we do. This campaign is a testament to our unwavering commitment to their holistic well-being.

“Encouraging healthier habits amongst our employees is one way in which we are building sustainability within our company”

With flu season fast approaching, we are determined to take proactive steps in promoting awareness and prevention among our employees. This campaign, held at our premises, saw an incredible participation of employees who availed themselves of the opportunity to receive flu vaccinations.

Our primary goal was to stress the importance of getting an annual flu shot, as it is the most effective way to safeguard against seasonal influenza. It also plays a crucial role in preventing the spread of the virus to your loved ones. Protecting yourself and your community is what the Anti-Flu Campaign is all about.

Our employees health, safety and peace of mind are our top priorities and initiatives like the Anti-Flu Campaign reflect our dedication to keeping our Gulf Extrusions family in the best of health.

By participating in Anti-Flu Vaccination campaign, we can assure our employees and their families that we are committed to actively fighting influenza infection.

Breast Cancer Awareness - A Webinar for Early Detection and Prevention

In conjunction with World Breast Cancer Month, observed annually in October, Gulf Extrusions, subsidiary of Saif Al Ghurair Group, participated in a comprehensive webinar breast cancer awareness session organised in collaboration with MetLife and Life Medical Centre for employees at on Friday 13 October at 10:00 AM.

“ The webinar session focused on raising awareness about the significance of breast cancer screening and early detection. ”

As part of this online webinar, experienced specialist in the field from Life Medical Centre Dr. Sunaya S Puranik, Specialist Obstetrics & Gynecologist provided free counseling to our female employees of all ages and answered their queries, helping to understand Breast Cancer better.

Throughout the webinar, various topics were explored, including the impact of early detection on treatment outcomes, the role of regular screenings in identifying breast cancer at its earliest stages, and the importance of promoting proactive healthcare practices.

Early diagnosis and access to good quality and timely care are the cornerstones of breast cancer control. Some risk factors can be modified through information and advocacy, including unhealthy diets, physical inactivity and smoking.

By empowering our employees with the knowledge, resources, and partnerships necessary for comprehensive healthcare, we strive to safeguard their well-being and nurture a healthier employees.

Gulfex kicks off its fitness challenge with exciting activities

With the aim of encouraging Gulf Extrusions employees to make physical activity part of their everyday lifestyle, Gulf Extrusions has kicked off its Internal Fitness Challenge on October 28 at Gulfex Basketball Court area, as part of the company's commitment to promote fitness and teamwork among its employees in addition to supporting the Dubai Fitness Challenge initiative.

This year, Gulfex internal fitness challenge includes Football, Basketball, Cricket, Weight Loss and Badminton tournaments.

In addition, our employees had also joined Dubai Fitness Challenge by participating in Dubai Run, Dubai Ride and many more activities.

The Dubai Fitness Challenge is a very important part of Gulf Extrusions calendar and was a huge success for the seventh consecutive year.

For all ages, abilities and fitness levels, and with the best weather in Dubai coming up, what better time to kick off your active outdoor lifestyle season!

Put on your sneakers and tighten your shoelaces for a month-long calendar of exciting fitness events and wellness-centric entertainment.

“ We're IN for a fitter, happier and more productive workplace with Dubai Fitness Challenge ”
