Gulf Extrusions Magazine

July 2024

Issue 25

Dear Readers,

Welcome to the July edition of Gulf Extrusions magazine, where we bring you a collection of business topics and activities highlights showcasing remarkable project in UAE, innovative product, valuable training programs, and our shared commitment to creating a greener and better future.

In this edition, Gulf Extrusions has supplied high-performance aluminum products to Sharjah Criminal Court Complex. The aluminium are designed to have a gentle glow enhancing the perfect details of the buildings adding to the visual effect of ultimate beauty.

Unveiling our latest product innovation, we present The Glide, a revolutionary addition to our diverse range of systems. Explore here the exceptional features of this cutting-edge solution, designed to enhance convenience and aesthetics for both residential and commercial applications in the architectural sector.

Within the pages of this edition, we share insights from our recent Gulf Extrusions training sessions, where our team received

valuable knowledge and skills to stay ahead in the industry.

On 31st July, we conducted comprehensive firefighting training sessions for our employees, equipping them with essential skills to handle emergencies effectively. By investing in our workforce's safety, we ensure a secure and protected working environment for everyone.

As part of our ongoing efforts to prioritize the well-being of our employees, we organized the fifth Smart Clinic visit in 27th June. This initiative reaffirms our dedication to providing accessible and quality healthcare services.

Furthermore, in line with our dedication to environmental conservation, we take great care in cultivating our extensive collection of trees and plants across all facilities at Gulf Extrusions.

We hope you find this issue insightful and inspiring, as we continue to strive for excellence in all facets of our operations.

Enjoy reading!

5th Smart Clinic Visit – Valuable On Site Medical Services Provided to Our Employees

From routine check-ups to expert medical advice, Smart Clinic's presence ensures quick and convenient access to healthcare right here at Gulfex.

As part of our commitment to employee health & well-being, Gulf Extrusions hosts 5th Smart Clinic visit on Thursday 27 June 2024.

Instead of visiting hospitals and clinics, doctors & nurses come directly to our premises. This innovative initiative aims to save valuable time, particularly for individuals requiring chronic medications.

As part of the Smart Clinic campaign, our employees were offered a comprehensive array of complimentary health screenings, encompassing blood pressure and blood sugar level tests, height and weight measurements, assessments for diabetes, hypertension, & hypotension, on-site blood sampling, as well as consultations with doctors and medical professionals.

With these employee health and wellbeing campaigns, Gulf Extrusions demonstrates its unwavering commitment to fostering a healthy and thriving team.

Environmental Conservation: Our Green Commitment

See
how we realize
Greener and Better Future
for you

Here at Gulf Extrusions, we are constantly striving to explore innovative solutions which create a positive impact on the environment and help to achieve the ambitious goals towards building a better tomorrow for our planet and future generations.

In line with our dedication to environmental conservation, we take great care in cultivating our extensive collection of trees and plants across all facilities at Gulf Extrusions.

Every tree, flower, and shrub has been carefully chosen to enhance biodiversity and promote ecological balance.

Join us in our commitment to a greener future.

Together, we can make a positive impact on our planet and preserve its beauty for generations to come.

We serve our guests in-house grown mint with natural honey.
